The G

TS SNAKE KILLING CONTEST CAME TO CLOSE ON LAST MONDAY IN COUNTY

The snake and waterdog killing contest, which started in Pocahontas county June 1st, came to a close on last Monday, July 31st.

It is estimated that several hundred snakes and other vermis listed in the contest, have been killed during this period. In former contests, the dates have been from May 1st to July 31st, but owing to the late start this year. it was held only during the months of June and July.

The prize list this year surpassed any other to be offered in a contest of this kind in the county, which was as follows:

1—16 ga. single barrel shot gun
—donated by the Pocahontas County
Rod and Gun Club.

2—Single shot 22 calibre rifle—

tance ahead the gulch turned to the right and the road rose out of it by another incline. At the bottom of this cut in the bank sat a small black dog.

"Dog!" announced David, squirming about in his mother's arms. As far as he was concerned, all was again well with the world. Something of this feeling came to the parents. With a backward glance, which now held wonder instead of blind fear, they went forward with quickened step. When they were quite near, the dog—one of whose remote ancestors had undoubtedly been part Spaniel—moved out of sight at the side of the incline. A few more strides again brought the man and girl to a rigid halt. In the shadow of the bank stood the

MARLINTON TO HAVE AN AIRPORT IF PROJECT IS APPROVED BY CWA OFFICIALS

The town council for Marlinton, at a special meeting held last Tuesday, completed their part of the plans for the construction of an airport for Marlinton. The site, as selected by a survey made by a government aviation representative from Charleston, will be located above the fair grounds about two miles north of here on the lands of the late Uriah Bird, estate.

The field is to be 500 feet wide and 3000 feet long, and it is estimated that the project will involve an expenditure of approximately \$20,000. The port, when completed, will be almost in a direct line with the Cincinnati to Washington route, and it is hoped that Marlinton may eventually get air mail service.

The project will be done with CWA labor and the council directed A. O. Baxter to proceed at once with the surveying and work will be started as soon as it is approved in Charleston.

The council received an offer from F. P. King, administrator of the Bird estate, to lease approximately thirty-four acres for the field at \$2.50 an acre for a period of five years, and an option to purchase this amount at \$100.00 an acre, or to sell now at a price of \$20.00 an acre if the council would take a tract involving approximately one hundred acres. The reason of the wide range in price is because it would separate a tract of land, now adjoining the farm, and leave it by itself without a right-of-way.

THE JOURNAL WILL PRINT THE NEWS

We believe the general public will appreciate the assertion that "The Journal will print the news." This humble writer has long bemoaned the narrowness that puts publication of news matter upon the basis of personal likes and dislikes.

It has been our contention always that a newspaper worthy the name is a public institution. It looks to the public for its support and, therefore, it has a definite obligation toward that reading public which must be fulfilled.

We do not mean that editors should be devoid of judgment or discretion. But we DO mean that to put the publication of the facts which constitute NEWS, and in which a large number of persons may be interested, whether the editor himself be one of them or not, upon the platform of: "I'll do it for Jim, because I like him; and I'll not do it for John, because I don't like him," is not only narrow and asinine, but it is failing to meet one's responsibility to a reading public which is deserving of better treatment.

We feel relieved to add that we are thankful most editors we know are above that level. We only mention it because we know there are a few editors and publishers of daily newspapers who are getting by, (temporarily), by giving their readers only what THEY want them to have. We don't want to be classed in their category.

The Journal will print the NEWS.

... AND REST

"Come unto me—and rest."

This is the call of White Sulphur Springs—West Virginia's greatest gift in the way of healthful recreation and relaxation.

Its call was heard recently—and answered—by Secretary of State Hull and Mrs. Hull. The cabinet member was taking a short vacation to rest, and we've no doubt at all that he had earned a rest when one considers the strain of the duties of his office during the present so-called emergency.

But as we watched the secretary of state and his wife, sitting in the shadow of the shrubbery just opposite the courts, watching with interest the ladies' singles tennis championship match between Catherine Wolfe and Helen Marlowe, one wondered if all Americans, in their respective places, would not rest easier themselves if the secretary and other leaders in the present-day government would tell them the truthful status of our country in regard to the world-situation.

There is an old saying that "you can't hit anything unless you aim." The administration wants the help, no doubt, of everyone, to make the blow effective when it is struck. Why, we wonder, can't it see the importance of telling the American people the true status and objective? It would be a tragedy to strike and then to find that the force of the blow was not all aimed in the same direction.

—o—

CONVICTS OR CONVICTIONS?

Someone has defined crime as "an act against the welfare of the community."

Applying this in the light of present-day demands for submergence of individualism, gives the average citizen some food for thought.

There is a great cry today for Patriotism. We subscribe 100% to the ideal of Patriotism. But if one means by the term only war, and sacrificial death and labor in the interest of the state, then we cannot subscribe. We do not act against the welfare of mankind in general to surrender the conviction that one can also be patriotic who is ready to live worthily for his country. It is generally harder to do—and takes longer.

There is a great cry today for National Unity. We believe definitely in the spirit of Unity. But if one means by the term that we must completely subjugate and subordinate ourselves to our convictions to the thoughts and edicts of any one man, then we do not believe in it. It is not unity in the sense that it is "an act against the welfare of the community."

The Marlinton Journal,
Marlinton, West Virginia

Dear Sir:

I have just heard the sad news that Harrison county is to lose the valuable services of Mr. and Mrs. Ashby E. Ferguson. Presumably, however, it is only for a short time. I thought perhaps by advising you I might be able to tell the readers of The Marlinton Journal something of their good fortune without the editor discovering the outside that let this good news out.

It has been my good fortune to know for many years both Mr. and Mrs. Ferguson who are taking over the ownership of The Journal. They have been among our most substantial citizens in Harrison county. Their interest in every worthy cause has been evidenced by every type of support it was in their power to give. The religious interest of the community has always been a chief concern of these good folk. Their interest in schools, in good journalism and clean politics is well known in central West Virginia.

In the recent campaign for funds to continue the Christian program of Salem College, these friends of progress gave liberally and worked untiringly for the success of the campaign though neither of them had ever been registered in Salem College. These folk are made of a little finer stuff than the average citizen. If the work needs to be done, they are willing to help do it. Through you I wish to congratulate The Journal upon its wise choice of an editorial board.

I have had the pleasure also of knowing that illustrious journalist in your competitive paper, "Cal" Price. You must know very well his printer's devil, too, as I want you two devils to get your heads together and answer me this—How is it that Fayetteville county was doing the service of one of the great journalists of the State? Why should the home of journalism be contented to give full value where righteousness is as pure as the water that flows from your mountain springs, and where honesty and integrity are as universal as the blue of the sky on a summer's day?

You will, of course, be so kind as let my identity be known to the editor and his wife.

Sincerely yours,
C. G. BOND,
President, Salem College.Clarkburg, W. Va.
July 24, 1941.Mr. Ashby E. Ferguson,
Marlinton, West Virginia.
My dear Ashby:

Some days ago I learned that you were considering taking up your residence elsewhere. Today I am informed that you have selected Marlinton, West Virginia, as your future place of abode, and am now there. While I am pleased to see Marlinton gain such a useful and worthwhile citizen, yet the news that you have moved away from us comes to me as a real and painful shock.

Since taking up my residence here sixteen years ago, I have regarded you as one of Clarkburg's outstanding citizens. Indeed, you have been a real asset to this community. Our loss, through your departure, is sorely missed; if not actually irreparable.

Not only will you be lost to Clarkburg as a citizen, but you will be lost to us as an alert and active citizen, interested in our many activities and in promoting of all those the welfare of the city. You will be missed in the various activities of city life, among others and especially in the church and youth pertaining therein, in the Community Club and Western Association and

in the local chapter of the American Red Cross.

Particularly, in my work as Chairman of the Red Cross Chapter, will I miss the benefit of your experience, advice and assistance. Reflect for a moment upon what you gave in this Chapter and, through it, to your community! Seventeen years as a volunteer worker, and, during this period, the operations of a Red Cross training school in Clarkburg each summer, in which you taught both junior and senior life saving, Chairman of the Life Saving Committee, and member of the Board of Directors. Little wonder is it that you have been honored by the national body with a medal in appreciation of your many, many hours of unselfish volunteer service.

With good wishes to you and trusting that, in your new endeavor, you will meet with that success which you so richly deserve, I remain

Sincerely,

TO THE PEOPLE OF MARLINTON COMMUNITY

This is to certify that Mr. and Mrs. Ashby E. Ferguson have been citizens of Clarkburg for a number of years and as they are leaving for your community it is our hope and wish that you will give them a warm and friendly welcome. Mr. and Mrs. Ferguson are both contributing and have been very useful in all public undertakings.

My dear Mr. Ferguson:

Reaching home each day our very great loss of one who so gradually and discreetly acted in civic, social and religious activities to our great community and one who has never failed to meet responsibility and respect for duties when asked to do so. I find it fitting to pay you this honor and homage and to let you know how much we will miss you.

We wish to congratulate the people of Marlinton on the addition of citizens, in the person of Mr. and Mrs. Ashby E. Ferguson, who will bring any community to the highest type of citizenship.

May we also thank you again in behalf of the District Director, Charles H. Hays, of the American Red Cross, who will be at the Clarkburg Hotel some time ago, for the able address you gave on "National Defense" for which I had the pleasure of presenting you, and which was so enthusiastically and admirably received by that patriotic organization.

With very best wishes to you and Mrs. Ferguson, I am,

Most sincerely,

fare" of the people, to surrender the right to hold to one's own opinion.

Let us show ourselves truly Patriotic—not only by standing when "The Star-Spangled Banner" is being played, not only by applauding the appearance of the flag, not only by singing lustily "God Bless America"—but let us show ourselves truly Patriotic by a life of integrity, nobility, fair dealing, and reason in all with whom we come in contact.

Let us strive for that which is truly Unity—not the lazy subordination of a mind which is not enthusiastic enough to think for itself—but a unity which holds that "certain truths are self-evident," and that uprightness among them is the individual right to "life, liberty and the pursuit of happiness"; and the remembrance that some of the things we sometimes hope to gain by war may also be lost by war.

Friends!

The happiest business in the world
Is that of making friends,
And no "investment" on "the street"
Pays larger dividends.

For life is more than stocks and bonds,
And love—than rate per cent;
And he who gives in Friendship's name
Shall reap as he has spent.

Life is the great investment,
And no man lives in vain
Who guards a hundred Friendships
As a miser guards his gain.

Then give the world a welcome

And may no mortgage e'er foreclose

TO WHOM IT MAY CONCERN:

This is to certify that I have known Ashby Ferguson and Alma Ferguson, his wife, for twenty years. They have lived in Clarkburg during that time and have been active in church and civic matters in Clarkburg and its suburbs. They have been especially active and reliable in Republican political activities.

I have always found them true, worthy and energetic in anything they undertake.

Marlinton Women's Club:

I have the pleasure of introducing to your acquaintance Mrs. Ashby Ferguson, who has been a member of the Clarkburg Women's Club for a number of years and is now moving to Marlinton.

She and her husband are disposing of their lovely home here with the expectation of making Marlinton their permanent home.

We hope to see these two young people, but we are hoping they will be happy in their new home. They have an excellent reputation among their associates and neighbors here.

I take the liberty of recommending these to your kind attention. Any attention of favor rendered them will be appreciated by the president and members of our club.

Very respectfully,
(Mrs. C. M.) MYRTLE F. WEST,
President of the Clarkburg
Women's Club.Clarkburg, W. Va.
To the Citizens of Marlinton, and
Fayette County:

It was with deep regret and sorrow I learned that Mr. and Mrs. Ferguson were leaving Clarkburg to make their future home in Marlinton. This is a great loss not only to Clarkburg but to the county. Both have been very active and prominent in religious, civic and character building organizations.

Six years ago the Young Women's Christian Association organized a Junior Council to help promote the work of the "Y. W. C. A." This group consists of twenty-four young women. Mrs. Ferguson was selected as one of the charter members. She has served as its president and is still a member of the Council.

She also served as recording secretary of the Harrison County Young Women's Club.

publican Women's Club. She was elected as its president and served in that office during the last year. She is a member of the "Y. W. C. A." and the Republican Women's Club. She is active in the Junior League and the Women's Club.

I am respectfully asking your committee will find both Mr. and Mrs. Ferguson active in any move for the betterment of your community.

Sincerely,

To Whom It May Concern:

This is to certify that Alma Ferguson (Mrs. Ashby Ferguson) is a member in good standing of the Clarkburg Young Women's Christian Association. Mrs. Ferguson is a Charter Member of the Junior Board of that organization, and will the exception of a few years have been a member of that Board. Until her resignation, she has acted as the Activities Committee.

Mrs. Ferguson is very capable, and is a credit to the dignity of these young women.

The Junior Board expects to reorganize at Mrs. Ferguson's home, and her loss will be another's gain.

CONGRATULATIONS!

TO MR. AND MRS. AUBREY E. FERGUSON
AND TO THE REPUBLICANS OF
POCAHONTAS COUNTY

The change in the ownership and management of the Marlinton Journal is an occasion for felicitations to the new owners, to Republicans, and to the people of Pocahontas County generally.

It is a source of satisfaction that the Journal, which has so faithfully and intelligently served the cause of Republicanism and the community of which it is a part, passes into the hands of able, upright, and forceful people, who have been stalwart Republicans in and out of season and who have been upstanding leaders in the social, spiritual and cultural life of Harrison County for many years.

There has never been a time in the history of our state and nation when there was a greater responsibility imposed upon a minority political organization than that faced by the Republican party today. Now, as never be-

fore, the country needs an alert, virile, and articulate minority to act as a check against the excesses of the administration in power. The nation faces a graver peril than at any time since the Civil War, and while the conditions threatening our very existence as a free people, preclude carping criticism and petty fault finding, they do demand that we be eternally vigilant in the preservation of the two-party system of Government. It is an hour when we are all Americans before we are Republicans, and it is as Americans that we shall hold the administrations in power in state and nation to strict accountability.

The Marlinton Journal, under the direction of Mr. and Mrs. Ferguson, can be counted upon to discharge its full responsibilities in the great task that lies ahead. I send my greetings and good wishes to them and to the Republicans of Pocahontas County.

Dear Jack:

I want you to meet a new citizen in your community, Mr. Aubrey Ferguson. He is leaving our city and his many friends to take up residence in your community, and I am confident that you and Vivian, when you meet Mr. and Mrs. Ferguson, will agree that our loss is your gain.

Mr. Ferguson is very active, a Christian young man, with a world of ability. He is a very active leader in our church, a teacher of a large men's Bible class and I believe the finest teacher I have ever listened to in any Bible class.

I hope that you and Vivian will make it a point to get in touch with these young people and make them welcome in your community life.

FREEDOM

In an editorial that has been reprinted from coast to coast, read over the radio and given a dramatic reading on a CBS network, Hazel Parker, young reporter on the Louisville Courier-Journal, has defined freedom. Captioned "Freedom Is Made of Simple Stuff," she wrote:

"From the archives of broken peace we are bringing out old words and dusting them off for use again as shining lanterns to lead us through the darkness of another war."

"Words like freedom, justice and truth—all of them hard to define, none of them used more frequently than freedom."

"You cannot say what freedom is, perhaps, in a single sentence. It is not necessary to define it. It is enough to point to it."

"Freedom is a man lifting a gate latch at dusk and sitting for a while on the porch, smoking his pipe, before he goes to bed."

"It is the violence of an argument outside an election poll; it is the righteous anger of the pulpits."

"It is the warm laughter of a girl on a park bench."

"It is the rush of a train over the continent and the unafraid faces of people looking out the windows."

"It is all the howdys in the world, and all the hellos."

"It is Westbrook Pegler telling Roosevelt how to raise his children; it is Roosevelt letting them raise themselves."

"It is Lindbergh's appealing voice raised above a thousand hisses."

"It is Dorothy Thompson asking for war; it is General Hugh S. Johnson asking her to keep quiet."

"It is you trying to remember the words to The Star-Spangled Banner."

"It is the sea breaking on wide sands somewhere and the shoulders of a mountain supporting the sky."

"It is the air you will fill your lungs with and the dirt that is your garden."

"It is a man cursing all cops."

"It is the absence of apprehension at the sound of approaching footsteps outside your closed door."

"It is your hot resentment of intrigue, the tilt of your chin and the tightening of your lips sometimes."

"It is all the things you do and want to keep on doing."

"It is all the things you feel and cannot help feeling."

"Freedom—it is you."

FIRE PREVENTION WEEK

Each year in October, Fire Prevention Week is observed by proclamation of the President of the United States. It is a call on the citizens of this country to reduce loss of life and property by fire.

That week is always important. This year, with the country engaged in the greatest defense drive in all history—a drive which means that a large part of the human and material resources of this country must be turned to the gigantic task of making us militarily impregnable—the week is a hundred times more important still. It has been said many times, and it should be said many times again, that fire is the enemy of defense. Fire is the waster, the implacable destroyer of time, of human effort, of life, of resources. Fire fights against the swift production of airplanes and cannons and battleships and tanks. Fire fights against the nation's safety.

In the past years, it has often happened that fire losses have gone down during the week and the period immediately following, only to rise sharply thereafter. In other words, we Americans have had short memories. The lessons learned during the week were quickly forgotten, and we relapsed into our old careless, thoughtless habits.

That must not happen now. We must regard every week as a fire prevention week. We must regard every day as a day in which to keep in mind the hazards that breed fire, and the means of eliminating them. Only if that is done, can fire, our ever-present foe, be beaten. The war against fire is a war for American safety in which every one of us can play an aggressive part.

REVELATION: A MESSAGE TO PERSECUTED CHURCHES

LESSON TEXT—Revelation 1:3
 BLESSING TEXT—"He that readeth this prophecy, and keepeth the sayings of the book, this shall have his part in the tree of life."—Revelation 2:3

The Revelation is an little known, but we need part of our first lesson for an introduction to the book. The fact that this is a "revelation" which was given to John (John 1:1) is not the only thing which should come to your mind. (1-1), should mean we all ought to study it. But it is significant that there is a promise of special blessing to those who do read (1:3), and a solemn warning against tampering with the book (22:18, 19). Quite evidently that places great importance on the reading and study of this book. Can we do that?

The book is not easy to interpret, and we have different greatly as to its meaning. There are four general schools of interpretation. (1) The preterist, which puts it all in the past. Many of its predictions have not yet taken place, this view seems unreasonable. (2) The idealist, which regards the book as being entirely symbolic of spiritual principles. There is truth in this view, but it does not cover the historical events mentioned in the Revelation which are put to take place in the world. (3) The historicist, which regards the book as mainly an outline of church history. This view fails to account for prophecies yet unfulfilled. (4) The futurist which seems to be the best interpretation; that chapters two and three, while relating to actual churches then in existence, also outline the entire history of the church, and that the remainder of the book relates to future events. This is the interpretation which is largely held by conservative Bible teachers.

A brief outline of the Revelation is found (1:1-3) in the book itself.

1. "The things which thou hast seen" (John's vision)—chapter 1.
 2. "The things which are" (the seven churches)—chapters 2 and 3.
 3. "The things which shall be" (the seven seals, namely, war, famine, pestilence, death, storm, and fire)—chapters 4 to 22.

Our lesson portion brings before us two of the seven churches of Asia—Ephesus and Smyrna—with their lessons for and day.

1. The Ephesus Church—Active but Cold and Facing Judgment (2:1-7).

Following the celebration and the glorious vision of the Son of Man (1:12) we are told that, then, (1:13), John the apostle, who was the one to whom the vision came, is directed to write to the church at Ephesus, addressing it through "the angel" of the church. We do not know who he was, but since the word "angel" is used only in a broad sense of messenger.

The question of the church at Ephesus was a very important one. It was an active church, but it was not a church which was active in its work, active in its love, active in its service. It was not a church which was active in its love, active in its service, active in its service. It was not a church which was active in its love, active in its service, active in its service.

What is meant by saying that the church at Ephesus was "cold"? The church at Ephesus was a church which was active in its work, active in its love, active in its service. It was not a church which was active in its love, active in its service, active in its service. It was not a church which was active in its love, active in its service, active in its service.

2. The Smyrna Church—Poor but Faithful and Facing Persecution (2:8-11).

This is one of the two churches of the seven which were in Asia.

After Dark!!... by Rice

CAPSULES MIGHT HELP!

PEOPLE JUST AREN'T BUILT TO SEE IN THE DARK, AND IT ACCOUNTS FOR THE FACT THAT 60% OF ALL AUTO FATALITIES HAPPEN AT NIGHT.

BUT.

PROBABLY THE ANNUAL TOLL OF NIGHT DEATHS WILL BE CUT WHEN AUTHORITIES USE THE TAXES WE PAY FOR SAFE ROADS TO:

1. MODERNIZE AND QUOTE LIGHTING ON CITY STREETS.
2. PROVIDE MODERN SAFETY LIGHTING ON DANGEROUS, HEAVILY TRAVELLED HIGHWAYS.
3. AND WHEN THE MOTORIST AND PEDESTRIAN REALIZE THE LIMITATIONS AND DANGERS OF DRIVING AFTER DARK.

JUNIOR CHAMBERS OF COMMERCE
SPONSOR STREET LIGHT PROGRAM

Challenged by urgent national defense needs for safe, 24-hour-a-day transportation of troops, workers and supplies on the streets and highways of the nation, the United States Junior Chamber of Commerce experts to go "all out" in its "Safety With Light" campaign this year.

It was three years ago that the organization of 123,000 young leaders and professional men first learned the relationship between night traffic accidents and adequate street lighting. The majority of motor deaths, they found, occur at night, in spite of the fact that only one-quarter of the traffic is in operation between dusk and dawn.

An examination showed them that some cities had installed street lights of modern design, spacing and mounting height had largely solved the high night accident rate. Hartford, Conn., was an excellent example. The miles of dangerous city streets had lifted twenty-seven percent in sight in the three years previous to the installation of modern safety lights, but Hartford realized these night fatalities to one percent for an equal period after relighting.

There had a similar story to tell. The automobile city undertook a new ambitious street lighting plan that included 31 miles of main thoroughfares. The facts checked again. Deaths diminished 30 per cent of the total night accidents in those streets through its safety lighting program. The ratio of sight to day fatalities had been 1 to 1; with modern illumination, it was reduced to one-tenth.

The same was true in Chicago, Indianapolis, San Francisco, Los Angeles and other communities. Wherever the right type of illumination had replaced outdated street light-

ing, the night accident records revealed an amazing decline.

And, conversely, the locations where street lighting had been reduced for reasons of economy, the accident and crime statistics had moved upward alarmingly.

It was enough for the United States Junior Chamber of Commerce. Lighting that was from twenty to thirty years old was not good enough for an age of high speeds and heavy traffic. When the facts revealed that there were 10,000 persons killed AT NIGHT each year on the streets and roads of the United States and when it had been demonstrated that lighting would sharply reduce this figure, then it was time for the Junior Chamber to intensify safety lighting wherever it was possible.

In 1935, the first year that the Junior Chamber was working, there were 45 Junior Chambers which undertook to light their local areas. Many of these had remarkably success. Last year 21 chapters of this powerful national organization included "Safety With Light" in their constitution and the lights were turned on as a result on hundreds of miles of dangerous streets and roads.

In the year just ended, again the United States Junior Chamber of Commerce, 124 Junior Chambers throughout the country have had or started on their plans for saving lives and property through adequate illumination. The national committee is now a feature of this important activity may possibly next be represented by Kansas, Mo., Illinois, W. Va., North Carolina, and Long Beach, Calif., by commencing work in this field.

Now the campaign for better lighting work has spread the doors to new volunteers for their task in 1941-42. The working basis is in getting together local men and women organizations with an interest in light these statistics of dangerous streets and roads and work that are essential to the defense effort.

2 YOUTHS TAKEN FOR ROBBERY

Culprits Arrested at Homes at Casa; Authorities Release One, Jail Other.

James Brown, 21, and James Brown, 21, were arrested at their homes at Casa Friday afternoon for the robbery of the National Park Restaurant, located about one mile from Greenback.

Mrs. O. Brown, owner, stated that the pair entered the building about noon and ordered a drink. She said she went into the kitchen for a moment and when she returned both of the men were gone. Also, she discovered, was her cash box.

Following the pair's escape, Mrs. Brown said, Brown was found to have the cash box in his possession, but with about \$10 missing from it.

Authorities were immediately notified and upon investigation of the pair their names were furnished by County Officer Baker, State Trooper Johnson, and Town Policemen Woodall.

The pair were arraigned before Mag. J. A. Kishel on Saturday morning. Brown pleaded guilty to a charge of petty larceny and was sentenced to six months in the county jail. Brown was released.

Brown, it is said, was a member of the group which attempted to overtake Jailer D. B. Curry last spring to effect their release from the county jail.

SANTARIAN SAYS SCHOOL HEALTH CONDITIONS O. K.

Declaring that "Pocahontas county schools are above average from a health and sanitary standpoint," District Sanitarian R. F. Newkirk, gave the county school system a clean bill of health in making his report to the County School Board at its last regular meeting.

Commenting the board for its improvement program, he cited the fact that only twenty-five schools were without jacked floors which provide a circulation of heated air, instead of direct heat from stoves.

Sanitarian Newkirk said that the school system is in a high maintenance program. More than half the county schools have good natural lighting, and but eighteen schools were found to be without permanent supply of soap and paper towels.

In a brief summary, Mr. Newkirk recommended to the Board a five-year program of improvement. In that period, he said, all school buildings and equipment, with the exception of alterations, would have been done.

VEGETABLES NEEDED FOR HOT LUNCHES

An appeal is being put out by all friends of Pocahontas County's hot lunch program in the schools for donations of all kinds of vegetables from country gardens.

The hot lunch program, which is responsible for the feeding of hot lunches to more than 2,000 school pupils throughout the county, is sponsored by the Board of Education in conjunction with the Department of Public Assistance.

Finding that everyone realizes the definite health contribution which is made by the program, and believing that the excellent menu borne by the gardens of twenty residents may have left many persons with surplus quantities of vegetables, the county organization is asking that those who would be willing to give something from their gardens call the Board of Education office. Also there is a need for canning jars. Half-gallon sizes are preferred, but any size will be acceptable. Arrangements will be made to call for any donations, and persons who will be provided where persons are willing to donate vegetables which are not on the list.

The hot lunch program is greatly indebted to all who donate to the cause, and there are now the following amount contributed to take care of one person which can be used in the school.

Defense Bond Quia?

Q—If I would like to provide a bond for someone for myself when I return, can this be done by having Defense Savings Bonds?

A—Yes. If you purchase a bond for \$25.00 each month, each bond will mature in exactly 14 years. Then at the end of 14 years you will have \$350 payable each month as each of your bonds reaches maturity.

Q—But I will need more than \$25 a month.

A—There you should invest a large amount each month. Every \$100 you put into Defense Bonds will give you \$100 per year from now. Meanwhile, your money serves your Government during the period of national emergency.

Note—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan institution; or write to the Treasurer of the United States, Washington, D. C.

New Teachers More Students Mark Opening

Coaching, Mathematics and Commercial Studies Have Changes in Leadership.

Schools of the county got off to a fast start this week, according to announcement by E. E. Clifton, county superintendent, with only a few minor changes in teacher assignments and with good enrollments in the schools from which reports had been received.

The superintendent announced the employment of John Casey as coach of Marlinton high school, to replace Paul Lutz, who resigned. Mr. Casey, whose home is at Keyser, has been physical education director for three years at Potomac, W. Va. He obtained his Master's degree last summer at West Virginia University. Mr. Casey will teach biology along with his coaching duties.

Also added to the teaching staff was Mrs. Pauline Miller, an experienced teacher, who received a Master's degree at Iowa State, and who has been a member of the faculty at the West Virginia Institute of Technology, at Morgantown.

A new mathematics teacher also joined the students at Marlinton high. She is Mrs. Gordon Martin, who holds a Master's degree in mathematics from West Virginia University. With the employment of these new teachers, it is announced, six of the eleven instructors at the high school, including the superintendent, hold Master's degrees in addition to their other educational qualifications.

At Greenback high school, Miss Grace Brown took up her duties as teacher of mathematics and typing, having been transferred from Marlinton high; and Mrs. Opal Price, who was employed to teach social studies at this school.

One other act of the school officials resulted in the employment of Miss Helen Miller, of Burton, to be a teacher at Wilkes.

The partial report of enrollments, the superintendent said, shows Marlinton high, 233; Martinsburg, 421; Greenback high, 205; Cass, 221; Parkersburg, 208; Williams high, 201; Williams school, 201.

LOCAL PERSONS WILL ATTEMPT STATE T. N. MEET AT BUCKLEY

Miss Elsie Moore, county health officer, and Mrs. Jack W. Smith, W. Williams, of Marlinton, will present the health and safety of the W. V. State Fair, to be held at the W. V. State Fairgrounds, at Parkersburg, on September 27 and 28, at Marlinton. Mrs. Williams is the county physician.

IT IMPRESSES ME...

THAT a pleasant, unassuming man would have been mentioned to the J. A. Robinson Institute when the strong bonds which had made possible the children being followed by a father... The Mr. and Mrs. and all the help that could get them the remaining minutes every-where but stop the Journal office before they were out of having them for Sunday dinner.

THAT while an infectious movement and that "a prophet is not without honor even in his own country." It would not apply to him... the movement, even though it be from Park West when he appeared at the school last with Tommy Brown's head... and if I'm ever the father of five more at five or six I'll support the boys as hard as I can to help me celebrate.

THAT the town's proudest man is not that Mr. Robert Miller, whose father teaches things at the J. A. Robinson... \$2.50 the most made over her, and father's class the management and in getting to present it...

THAT even if they were not "know their names" E. Clyde Brown, who knows his parents, and W. A. Brown, is well acquainted with his business... They're happy's last summer's excitement... And add to your list of goodies some jelly put up by Mrs. Jack Robinson for the night when a father's daughter is made... or by some of Mrs. Brown's grand's grandsons, their "punch"... And if you're in Williamsburg, you might get a good one of Mrs. J. C. Miller's father's company and hosts...

THAT it was a happy couple who finished a career here last Sunday, and found to one there to guard a delicious home pie... When the father returned they found his wife... "We were here, but you were gone, so we had some pie, and were right when..."

THAT one of the latest jobs we've ever seen is "Fudge," the little head of Mrs. Wagon, the daughter's wife... We don't know "Fudge" for living the wife, but we'll be sure to try having like to do as get here...

THAT two people who should get together under one light for someone's sake are the wife and Mrs. Ada Brown, who were once neighbors... There's no pretension in being your smiling and come on over...

THAT it was indeed the teachers to know that when we concluded their devotionally last Saturday morning our Master will someone who is going to be that she didn't know if we'd gone over to pay for the teachers or for the pupils.

THAT this was a person who's going to go right Monday night to get a seat for "Sweet One Man"... The legend of the hanging man is that a hanged man's spirit is a charming voice until it becomes a shriek from the trees, when the village was haunted by his shrieks coming out of the trees... You know, we that particular girl in the picture, her Betty Smith's do... and didn't hanging man's story...

THAT this would bring a smile to the face of old Mrs. Green... that in William H. Taylor has been a special job... She, if there was "Sweet One Man" and the other was indeed a man at "Sweet One Man"... All right, but you know, you know that the man has been hanging there for some time, and in addition to the person's appearance with an attitude of his appearance, the man who was "Sweet One Man" was a gentleman and a good person... and he was a good person... and he was a good person... and he was a good person...

The members of the Navy have a special duty to perform in the defense of our country. They will be awarded the highest Navy decorations for the service of the nation. And they will be rewarded in civilian life as well as in the navy for their service.

SERVE YOUR COUNTRY • BUILD YOUR FUTURE

IF YOU WANT to get ahead fast, to serve your country, to build yourself a great-paying future.... here's the opportunity you've been waiting for.

The U. S. Navy may train you to become an expert in any one of nearly 50 skilled fields. Each month, over 2000 new men will be sent to a Navy Service School, where you learn to be a Diesel engine operator, machinist, electrician, cook, dental technician, radio operator, or whatever specialized work you're best fitted for. The first year's training which you get is worth at least \$1500.

The Navy forecasts the entire bill. You carry while you learn. In fact, it is possible for an enlisted man to earn up to \$100 per month—cash help.

You'll have plenty of opportunity for advancement in position and pay—and you'll have fun while you work! You'll come out of the Navy fully prepared to take on a good job in private industry. And if you want to stay in the Service, you can go right to the top... and receive the end of 20 weeks to 20 years with a liberal monthly increase.

You can choose now between the regulate or the release. Both offer great possibilities for adjustment.

RESTORING JACKSON'S MILL

The Journal wishes to give immediate furtherance to the idea of restoring to usefulness the Jackson's Mill, at the historic Four-H camp site. The idea first came to our attention when we read of it in Editor Smith's splendid "Good Morning" column in The Fairmont Times, and it is so in keeping with our own ideas of advertising West Virginia that we want to pass it on to our readers, in the hope that they, too, will start pushing the project.

The plan, according to Editor Smith's article, is to "restore . . . to an operating establishment" the old mill "with a view of grinding a special kind of corn meal to be sold in fancy packages to the tourist trade. . . . The marketing of the cornmeal to the tourists . . . would probably become a function of the state parks.

"It is the fashion these days for states interested in the tourist trade to sell official souvenirs, and the Stone-wall Jackson cornmeal of West Virginia would fall into that category. The finished product, according to the plan, would be sold in fancy sacks, holding various quantities of meal, and each sack would be in the exact shape of the state of West Virginia. Each sack would also contain a little booklet of recipes for the various things you can make out of cornmeal—corn cakes, corn bread, hoe-cake, etc.

"The cost of restoring Jackson's Mill to a productive state will be in the neighborhood of \$12,000. . . . The same type of grinding implements used in Jackson's day will be installed, and it is hoped that some of the original stones can be recaptured by the state. The old mill-race will be restored, probably by WPA labor, and the overall expense will be kept at a minimum.

"It is anticipated that when the corn meal is marketed it will sell like hotcakes and will help advertise West Virginia all over the country. How many places the meal can be bought besides the state parks has not yet been figured out, but it is hoped that it will be available everywhere tourists are likely to visit, such as hotel cigar stands, some filling stations and at certain stores in the towns and cities."

Also, Mr. Smith (who refers in his column to the interest in these projects manifested by T. D. Gray, state conservation director) points out that the plan extends itself to include marketing in similar fashion West Virginia maple syrup, and the rerouting of the main Clarkburg-Weston highway so that it will pass the old mill site.

With apologies and thanks to Mr. Smith for this partial reproduction of his column, we make our own contention that the beauties and interests of West Virginia are unexcelled, and that our roads are rapidly coming to the place where they compare very favorably with the roads of any mountain state, to make these sites accessible. Therefore, not only the State Publicity Department under Scott Cutlip, but each individual citizen, should lend every effort to bring to successful completion the plans which are being laid to advertise our State. We should do this, not only because it will be profitable, but also to bring our State in the minds of people generally to a high place, where our State and its people will be respected and admired for the really fine qualities which they possess.

Let's dedicate ourselves to—

Boost West Virginia more and more,
To bring our great State to the fore.

A happy ending may not end the

story of modern writers of fiction,

but it does end God. He "who worketh

all things after the counsel of his

own will" (Eph. 1:11) will see to it

that no man shall "be to the praise

of his glory" (Eph. 1:12). The

eternal, omnipotent God will

bring the history of His dealings

with mankind to a glorious ending.

The last book of the Bible comes to

its last page when, after dealing

with the final struggle of man with

his enemy Satan (which has gone

on since the entrance of sin into the

world at the Garden of Eden), we

find the glorious, God-given revela-

tion of the "drum, final restoration

of the universe, a picture of the

house where we who love the Lord

Jesus will forever dwell.

I. "The Tabernacle of God is with

Men" (Rev. 1:7).

Our God is always with His people,

but there is a promise of the time

when He shall "pitch His tent" (Rev.

1:7) with us. This may be translated

the word "tabernacle" in their very

heart and "He will pitch" in full

and abiding fellowship. This He

does not for a time when "His Word

was made flesh and dwelt among us" (John 1:14), or literally "tab-

ernacle among us." In the day of

which our human nature will

come to live permanently with His

people.

The thoughts of His divine pres-

ence are beautifully described in

verses 4 to 6. There will be no

more tears, because every occasion

for them is gone. There will be no

death, pain or sorrow, for the one

who sits upon the throne will have

made everything new.

Christianity does not evade the

question of sorrow and suffering,

but it does point to a glorious day

when they will be done forever.

What a precious promise!

II. "The Holy City . . . Having the

Glory of God" (Rev. 21:2).

The description of the holy city

is differently interpreted, but per-

haps the best one is that it will be

in the form of a pyramid on a

square base 1,500 miles in width

and length (12,000 furlongs—i. e., 18),

rising in terraces, and 1,500 miles

high at the top.

The description of the city is given

through 21:2-21, but the opening fact

of all is that it has "the glory of

God." His presence means more than

all the glories of precious stones and

of "pure gold, like unto clear glass."

He is more than His gifts, and His

presence is more precious than all

His mighty works.

III. God the Almighty and the

Lamb Are the Temple (Rev. 21:22).

As long as we live under the

present conditions of life, we cannot do

without a place to meet to worship

SING AT OLD LOG CHURCH

There will be singing at the Old Log Church, located on the corner of 12th and 10th streets, on Thursday, October 10, at 8:00 p. m. The program will include songs from the hymn book, and other songs arranged by the choir.

Calvin W. Frost will speak at the meeting, which is open to all. The church is located on the corner of 12th and 10th streets, and is a fine example of the early architecture of Marlinton.

PRODUCE DEPOT TO BE DISCUSSED AT MEETING MON.

In order to take advantage of a government grant of \$100,000 for the purpose of building a produce depot in Marlinton, a meeting will be held at the Marlinton Valley Chamber of Commerce on Monday, October 14, at 8:00 p. m.

The proposed depot will be used for the purpose of storing and distributing produce from the local area. It is expected that the depot will be completed by the end of the year.

In keeping with the belief that by helping the farmer you help yourself, the Marlinton Valley Chamber of Commerce is sponsoring a series of meetings to discuss the proposed depot.

BOARD OF TRADE MEETS AT HILLSBORO

Ladies' Night

The Marlinton Valley Board of Trade will hold a Ladies' Night meeting at the Hillsboro High School on Friday, October 11, at 8:00 p. m. The program will include a social hour and a business meeting.

The meeting is open to all ladies, and is a fine opportunity to meet and hear from the local business community.

Death and Taxes

By FREDERICK W. STAMM
Economist and Director of Adult Education
University of Louisville

The greatest tax bill in history, estimated to raise over 15 billion dollars, was signed recently by the President. Very few American citizens or American families will escape paying higher taxes.

Of major importance is the lowering of the income tax exemption for the single person to \$750 and the married person to \$1,500. This means that every single person making more than \$1,440 a year and every married couple making more than \$2,880 will have to file an income tax return next March 15. It is estimated that over 4,900,000 people will file income tax returns for the first time.

This law includes a new 10% tax on electric and gas appliances, sporting goods, photographic apparatus, and luggage and a 5% tax on electric light bulbs and radio tubes.

If you have a telephone, you will notice a 6% tax on your local telephone bill. If you should use long distance service, you must pay a 10% tax. You may not buy a new automobile next year, but even so, you must pay a \$5.00 Federal usage tax on your old car. If you should buy a new one, the tax will no longer be 3 1/2% but 7%. Every time you light your pipe, cigar, or cigarette with a wooden or paper match, you will be helping Uncle Sam to pay the war cost, for the new tax on matches is 2¢ per thousand. Do you go to the movies? If so, you will pay larger taxes on your admission tickets. If you enjoy Paul Whiteman's swing music or the New York Philharmonic Symphony's recordings, you will find the price of records up due to taxes.

He will be a poor man indeed who will not pay taxes. He cannot smoke, drink, own a car, use a telephone, go to a movie, buy a deck of cards, buy a box of matches, send a telegram, buy a ticket on a bus or railroad (costing more than 35¢), buy fur, jewelry or cosmetics, go to a cabaret.

There is an old saying that only two things are certain — "death and taxes" — and many Americans will realize this year for the first time that this old saying has a modern version.

STATE SUNDAY SCHOOL CONVENTION WILL BE HELD OCTOBER 22 - 23

The West Virginia Council of Churches and Christian Education will hold the annual State Sunday School Convention in two regional conferences meeting in the First Methodist Church, Charleston, Wednesday, October 22, and in Bayview Temple, Charleston, Thursday, October 23. These conferences will enroll leaders of the several denominations for a special study of church work with children and cooperation of church and home in securing more effective Christian education of childhood and youth.

National, State, and local church leaders will direct general and departmental sessions. Rev. E. B. Edwards, Charleston, General Secretary of the West Virginia Council of Churches, states that church leaders have joined in planning the program and are abiding in promoting attendance from all church members.

Entertainment for the night will be provided for those coming to the evening session. Local transportation will be arranged by Mrs. C. C. Hester, Bridgeport, for the Charleston conference, and Mrs. W. P. Adams, South Charleston, for the Charleston conference.

STORIES IN PICTURES

There comes to the front of the editor from time to time certain pictures and news articles of general interest, which he cannot print for lack of space. However, the Journal believes it has an obligation to its readers to publish these pictures, because many of these readers may not otherwise have access to the news thus given. The Journal this week has gone to considerable expense and additional work to include a newspaper page which it will try to do at frequent intervals in its effort to adequately present to its subscribers and friends all phases of the American way of life.

COUNTY ENTRANTS SHOW WAY TO ALL FESTIVAL SAWYERS

POST-WAR INTERNATIONAL COOPERATION

Supreme Court Justice Jackson has a great confidence in the American people. He has a great confidence in the American people. He has a great confidence in the American people.

INFLATION CONTROL

Price Administrator Anderson, speaking in New York, said that the country is now experiencing the "jagged, irregular price advance" with which inflation starts. Inflation is a serious problem, and it is a serious problem.

TAXATION

Treasury Secretary Morgenthau, speaking in Chicago, said the Treasury is anxious to divert into defense stamps and bonds spending produced by pay increases and bonuses. He suggested every Christmas bonus be paid in defense bonds or stamps.

DEFENSE

Partially to combat inflation, the President plans to ask Congress to extend the Social Security program to 40,000,000 persons — double the number now covered. Increased payroll taxes under the program would finance additional funds from contributions.

Police Head Warns Of 'Confidence' Men

Backstagers Are Working on Rural People in Many Sections of West Virginia.

CHALLENGER — Speaks of men who are working on rural people in many sections of West Virginia. He says they are working on the people in a very subtle way, and that they are working on the people in a very subtle way.

When the nation's No. 1 stock market crashed through West Virginia, the police head warned of a "confidence" man who was working on the people in a very subtle way.

POCAHONTAS COUNTY SAWYERS WHO WON ALL MAJOR PRIZES IN SAWING CONTEST AT THE MOUNTAIN STATE FOREST FESTIVAL

In the spirit of a broad exposure of living virtues, and under the friendly supervision of Margaret Ogden Stubbins, reigning as Queen 1941, the Taylor family of Huntersville, presented a championship performance of 1939 by walling through an 18-inch birch log in the remarkable time of 20.5 seconds at Mountain State Forest Festival at Elkton. The skill of the Taylor brothers, coupled with the efficiency and accuracy of a 12-foot green-cut saw filed by Elmer Workman, enabled them to win all prizes of the contest. The winners are pictured on the left above. In the foreground of the picture on the right are James Workman, Jr., and Ray Workman of Huntersville. Other county winners were Ruth Taylor of Huntersville and Evelyn Higgins of Matthews in the women's event.

Biddy Goes to Work Early

Swarming will send millions of eggs this winter, as part of the "do-or-die" promotion. Kathleen Brown, pretty 4-H club girl, shows today that swarming hives will be required. Many poultry producers follow this practice of turning on electric lights in laying houses early in the morning during winter months. The practice compensates for the fewer hours of daylight and gives hens a full day of eating and laying.

Soldiers Choose "Correspondence Queen"

Georgia Miss Graham, 28, Jacksonville, Fla., voted by unanimous consent of the Congress last Feb. 18 the "American flag" wearing to a soldier's tomb her husband's uniform. She is the only woman in the Congress who has been so distinguished. She is the only woman in the Congress who has been so distinguished. She is the only woman in the Congress who has been so distinguished.

Soil Defense in W. Va.

But officials stress returning to the well care of the vital materials that are necessary to the production of high quality products. Throughout West Virginia, but as in the thousands of other towns in the big country, farmers participating in the U.S.A. farm program are using large quantities of ground limestone. Much of this is then used extensively for the production of good alfalfa such as County Agent John H. Flanagan is attempting to do in the lower plateau.

Choose Colors Wisely When Buying Clothes

Any fashion connoisseur will tell you, color is the most subtle element in good taste, and an important factor to consider in choosing your clothes. You can cheapen the most beautifully cut dress with the wrong color and ruin your good looks with the same mistake.

[illegible][illegible]

From many points of view hair is important too, but the main thing is not to be killed in wild swimming. Don't. Wear head matts, wear a color to match your hair. A grey-haired woman who goes in for grey inside a full swimsuit, and a red head will attract from her own lengthiness. If she wears supple and bright brown. Eyes however, assume less importance because most eyes are not distinctly colored or have mixtures of blue gray or green brown.

Prompt Treatment Recommended For Anemia Patients

THE presence of a run-down condition, a pale complexion, and a listless attitude is all too frequently hastily diagnosed by any means as anemia. Actually anemia is much more important than this. Either it is a condition resulting from specific causes which must be treated concurrently with the anemia, or it is a serious disorder—symptomatic anemia.

With an eye to informing the general public of the events, efforts, and treatment of this sad adolescent ailment, Maxine Paris has written for the *Quoniam* fund. Her book is a negative, all-encompassing overview on the subject in terms understandable only to the layman. The basic cause of juvenile anorexia, Marc Berman, is due to deficiency in the body of essential elements from food.

The disease attacks individuals, sparing a neighbor to first, they experience trouble, and a condition which may extend from the tongue to the stomach. Many years, Miss Smith explains, she remembered by about half of the tongue applies and a loss of the vibration sense. These vague symptoms make it difficult for the doctor to determine a correct diagnosis, but when the symptoms have been determined, prompt treatment is needed.

Diets, especially *Blue Devils*, is administered, usually by injection, to counteract the effects of the disease but each year requires a different adjustment to keep the blood at a normal state. Like diabetes, permanent treatment must be worked throughout life, the while the changes need not be repeated if it can be halted.

Author Deplores Lack Of Personal Neatness

THERE is a growing industry in this country toward electricity. Most in suspension girls in dirty slacks are far too common a sight in restaurants and refreshment parlors. But what they ask, does it matter? Who cares? Nobody is any better than anybody else in this country!

But there is a uniform, says Margaret Culkin Banning in the October Good Housekeeping magazine between sloppiness and democracy. Yet as we progress to define democracy, one of the first steps is to build an economic and social foundation of stress to our world. The authors know that disciplined violence is democracy in the American sense. It requires self-control and

If you'd be our a clear, better
company, we should both the part.

Baby-fine Hair Needs Constant Attention

If yours is flat, soft, thin hair, your hairdresser has a name for it. The style is "Baldy-doo." The solution is that because he knows what a trial it is, if you are lucky it won't stay in place.

[illegible]

Naturally, writes Miss Egloff, this type of hair requires the utmost care. It must be washed and dried often, and never allowed to become frizzy or stringy. And as for a haircut, feel a hairdresser who is conversant with your type and stick to it. She will probably give you a neutral section permanent, optimal for volume and finish of the head in proportion to the lower half. It may not eliminate your hair altogether, but instead will expose it lightly so as to give the same effect unobscuredly. *See art.*

Make-up Quickies

WITH the arrival of fall activities, membership meeting club dinners, and now, around war work, women find it difficult to take much time out to have their hair done.

But if you want to remain a spectator while watching her at home, Celia, shoot, in the United Riverbushings magazine, a couple of suggestions for make-up overkill. If you're in a rush, say Miss Sharp, and send a facial by plane to take up 11, the quality can be much in your milieu. Clean your skin with mild cream, apply more oil than thickly, leave it on for 10 minutes; why it off, and your face will be and feel refreshed.

If you change tires often, have your alternator tested and fill. Keep less gas, a compact, better and a newly folded license in your car. Then you're always prepared because you promptly replace oil, tires as it is used. Experience is probably taught you that on long trips and long driving expeditions you take after gas only and avoid loading. Therefore why not grab carry a small bottle of skin from your car and your entire to stop a thimble?

Young Mothers...

The health of young mothers undergoes serious strain during the months following the "happy event." One of the most severe demands, of course, arises because baby's clothing must be fresh and clean every day... and that means daily washings in the laundry household.

Modern Electric Washers

Lighten Household Duties!

With an electric washer, the young mother can do her work without impairing her health, can have time for other necessary duties, can spend much more of it with the baby that needs constant care and watching. Electric washers are not expensive, require almost no maintenance, and make for comfort, are the most helpful thing available for the young mother, and do their work without grinding or mauling clothes—and they're always on the job!

This Month on the Farm

Thanksgiving time is now at hand.
We must also like it every year.
Dreams for days and weeks are planned—
All will be happy, friends agree.

Although the United States is not the center of democracy, it is fast becoming the headquarters of democracy. This year the thanks which Americans give for America will be added to their thanks that our nation is great and powerful enough to feed, partly at least, the nations fighting valiantly against the aggressors.

To the producers of America in connection with the war in the world will be added the producers of reconstruction when the war is over. All Americans should make a special point of knowing as much as possible about what is going on around them—politically, socially, and economically.

Feeding the homegrown, magazine, and books, listening to the radio, discussing events and problems with neighbors, are all parts of the life of patriotic West Virginians during and after the emergency.

Only by educating one's self thoroughly in every way can one make the maximum contribution to the war effort and to reconstruction after peace. With the heavy and hectic life of the spring and summer past for this year, West Virginians have had an excellent opportunity to catch up on the facts which the rush of work may have caused them to pass over hurriedly during the busy months.

Buckles at Night Time

Well until the weather is settled, what will be before buckling the main supply of buckles. The temperature should be just about freezing, so that the road can be closed to about 25 degrees within 24 hours after buckling. Get an extra of Emergency Service Bulletin No. 127, "Tire Buckles," from the county agricultural agency for other helpful suggestions on buckling, curing, or buckling from west.

Keep the road well under foot with buckles during the winter, period to winter, buckling buckles when they are frozen in the spring.

Supply buckles with a good supply of buckles at all times. Keep them in the best shape, try to get them in good shape in winter. Start buckling when they are frozen in the spring.

Supply buckles with a good supply of buckles at all times. Keep them in the best shape, try to get them in good shape in winter. Start buckling when they are frozen in the spring.

Give everyone a good long drink of water before the ground freezes. Buck the ground thoroughly as far as the buckles extend and as deep as the buckles go down.

Put some sand on the windows to make the house easier to heat and more comfortable in cold, windy weather.

Take Care of the Car

Put anti-freeze solution in the automobile radiator before a severe freeze damages it or the engine head. Drain and flush the radiator with a good cleaner before putting in the anti-freeze.

Cooperate with the neighbors in having a competent mechanic in town all the time in the community even the end of the month to end of the year.

Pay off all debts possible while there is additional products are available. Think twice before going into debt for land or anything else that is not necessary.

GROWS LARGE PEARS

W. L. Davis, who lives just across the street from the People's Store, is the owner of a pear tree or two in his yard, some with several large pears, have grown this year. The largest, measuring 1 1/2 inches in circumference around the middle, and 1 1/2 inches in circumference when

A Favorite "Family Car"

Massive and sleek modern characterizes the new 1942 Chevrolet Fleetmaster Sedan. This popular four-door, six-passenger model is now on display at Chevrolet dealerships.

GREENBANK VICTOR

Greenbank's Victor Eagles was another well-known victory last Wednesday when they played over a southern teaming school on the latter's field.

The Eagles kicked off to leading by starting the game and the home team looked as if they were back down but the Eagles took over on their own thirty. Then Greenbank started rolling down the field and in three plays had a touchdown, Smith plugging over for the score. Smith's attempt for extra point was good. The rest of the first quarter was played on even terms.

The Eagles scored again in the second quarter when Rader, Greenbank tackle, intercepted a Lewisburg pass and three plays later Gillingham, Eagle left halfback, shifted around right end for another touchdown. Smith's attempt for conversion was with. The teams seemed well matched the rest of the second quarter. The first half ended, the score 14 to 0 in favor of Greenbank.

Lewisburg kicked off first in the second half, and the third quarter was played mostly in the Lewisburg territory, with the Eagles driving at one time to the five-yard stripe, but being the ground to score.

The fourth quarter saw the Eagles score their final touchdown with full-back carrying the golden. Smith scored the point after touchdown. In the final minutes of play Gillingham intercepted a Lewisburg pass and scored 18 yards for another touchdown, but the play was called back on account of a penalty against the Greenbank team, and the game ended with the final score Greenbank 28, Lewisburg 0.

Men's Shop Robbed

Breaking a rear glass, thieves effected an entrance late Tuesday night into the Men's Shop here, and made their escape with \$80 to \$75 in merchandise and a small amount of state tax money, according to an announcement by Paul Overholt, owner. The robbery was reported immediately and state police and town officials expect to apprehend the culprits in the next few days.

Mr. Overholt says he may be back home soon.

Mr. Kerchner and his son are doing a fine job of road building in this section. We greatly appreciate the kindness of Mrs. Myrtle Pettig and Joe Pettig for giving the right of way.

Carl Hively, who is in the Navy, on the Battleship New York, writes that he is feeling fine, and that he is kept very busy eating and sleeping.

Mr. and Mrs. Harry Miller, Mr. and Mrs. James Smith and two sons James and Virgil were visitors at the home of John Hively last Sunday.

W. A. Hively attended the meeting of the State Education Association last week and reports a large attendance and a profitable meeting.

We are sorry to hear of Mrs. Robert Hively of Harrisonburg being in the Harrisonburg Hospital. We wish her a speedy recovery.

EMPLOYMENT AND WAGES

Secretary of Labor Perkins reported average hourly earnings of factory wage workers were 74.3 cents during August. Federal Security Administrator M. S. E. announced 143,700 jobs were filled through the State employment service during September—45 per cent more than last year. Wage-hour Administrator Fleming said he favored a program of wage stabilization which would not freeze wages at present levels, but would first adjust existing differences between one plant and another doing the same work and make provision for adjustments to increases in the cost of living.

LABOR DISPUTES

The President directed Secretary of War Stimson to take possession of and operate the Radio, N. J., plant of Air Associates, Inc., after a dispute developed at the plant over

the replacement of workers by the International Union of Marine Workers. General Ray M. Jones, in charge of 2,100 soldiers who took over the plant, said, "employees working in return to their jobs will be given all necessary protection."

The Defense Maritime Board began hearings on the latest dispute involving captive and union in the shipbuilding yards after the United States Warrents issued to accept the President's request to return to work in the interest of defense pending settlement of the dispute. The U. S. Conciliation Service reported settlement of 28 other labor disputes.

DEFENSE HOUSING

Defense Housing Coordinator Feltner reported 1,200 publicly-financed defense homes were completed during the week ended October 25, bringing the total ready for occupancy to 48,372. Homes being built or already completed under the defense program now number 101,795.

DENTAL CARE FOR SELECTED

Lt. Col. C. E. Wells, chief dental officer of the Selective Service System, said in a speech in Texas that the program to rehabilitate selective service registrants with physical defects that can be remedied will begin with the treatment of 100,000 men for dental defects. The men will be treated by dentists in

THE FINEST CHEVROLET OF ALL TIME
FOR THE SERVICE OF AMERICA
Distinctive without being expensive
CHEVROLET'S NEW Fleetline MODELS

Their surprising quality—plus their surprising economy—sets them apart from all other "Torpedo" models.

Superlative grace and beauty distinguish Chevrolet's new Fleetline Sedan and new Fleetline Sportster.

And, of course, they also bring you all of the Value-in-Head "Victory" performance and economy... all of the 36-year-proven dependability which characterizes the new Chevrolet... The Fleetline Chevrolet of All Time.

See these distinguished cars at your nearest Chevrolet dealer's, and convince yourself that "It pays to buy the leader and get the leading buy."

—The Editors

All of this is the reason why in 1943, even as in the case of the Pilgrim Fathers, anomaly though it may be, symbols of Thanksgiving Day are a shooting iron and a shield. The one emblematical of man's desire to be free, the other emblematical of his determination to foster to nurture that desire!

George E. Deane

BOB F. A. S. THORNTON

The papers told us the officer says, "I would be in trouble if I didn't do it." "Super!" There, was the end with handshakes in town, even in there how much he over the circumstances. "He felt all his work done."
